Introduction

Launch Your Career in Cloud Transformation with IBM

Are you ready to work on technology that's reshaping how the world's leading organizations operate? Join IBM's Oracle Cloud Practice as an Intern and gain hands-on experience helping clients modernize their business processes through cutting-edge cloud solutions.

This internship is designed for curious problem-solvers, innovative thinkers, and future technology leaders who want to accelerate their professional growth. You'll gain exposure to enterprise cloud applications, business transformation initiatives, emerging technologies, and IBM's collaborative, inclusive culture that empowers you to learn, grow, and thrive.

If you're passionate about technology, consulting, and helping organizations unlock the power of the cloud, your future starts here.

To give yourself the best opportunity for success, we advise applying only to roles that align with your skills and experience, rather than applying broadly across all entry-level positions. You'll receive a status update email for each application, so be sure to check your IBM Careers account regularly — it's the best way to get a centralized view of which roles you have active applications against.

Your role and responsibilities

During your internship, you can enhance your knowledge and gain professional experience by working on client projects. This role provides an exceptional opportunity to build a compelling portfolio, acquire new skills, gain insights into diverse industries, and embrace novel challenges for your future career.

At IBM, we prioritize continuous learning, skill development, and personal growth within a culture of coaching and mentorship. As an intern, you'll experience this culture and could advance to our full-time Associates program based on results and performance.

Work experiences you could be exposed to:

- Market Dynamics: Immersing yourself in primary research and collaborate with dynamic teams assisting clients in navigating market trends and refining competitive strategies.
- Operational Excellence: Support operational improvement by designing models for a seamless client experience, contributing to heightened efficiency and effectiveness in operational processes.
- Stakeholder Engagement: Support workshops, meetings, and interviews to understand and document requirements collaborating with diverse teams to capture and synthesizing essential information.
- Project Exposure: Gain hands on experience shadowing product teams and enterprise-wide data integrations. Contribute to data analytics assessments and actively participate in cloud migration and system implementations across major platforms.

The primary internship program dates are May to July 2027 (10 weeks).

Required education

High School Diploma/GED

Preferred education

Associate's Degree/College Diploma

Required technical and professional expertise

- Currently pursuing a university degree with a track-record of academic success (Preferred majors: Business/Finance/Accounting, Supply Chain Management, Industrial Engineering, Human Resources).
- Client-facing internships, consulting clubs, strong process orientation, and documentation skills.
- Exposure to enterprise software or business processes; experience with Oracle Cloud or other packaged applications is a plus.
- Coursework, capstones, part-time jobs, or internships related to business processes in Finance (ERP), HR (HCM), Supply Chain (SCM), or Customer Experience (CX)
- Strong interpersonal skills that enhance collaboration and relationship building, while also managing dynamic workloads in an agile environment.
- Have initiative and passion to actively seek new knowledge and improve skills while embracing a growth mindset to assimilate diverse viewpoints
- Demonstrate leadership experience and ability to communicate effectively through active listening; while also be willing to adapt and have a readiness to take ownership of tasks and challenges.

Preferred technical and professional experience

- Can understand clients' needs and challenges, applying a creative and logical approach to

identify solutions.

- Demonstrate foundational quantitative analysis skills and ability to develop data driven recommendations.
- Exposure to one of the following programming technologies (e.g., JavaScript, HTML, XML, SQL) is a plus.
- Leverages business knowledge to drive solutions for clients and their management.

ABOUT BUSINESS UNIT

- IBM Consulting is IBM's consulting and global professional services business, with market leading capabilities in business and technology transformation. With deep expertise in many industries, we offer strategy, experience, technology, and operations services to many of the most innovative and valuable companies in the world. Our people are focused on accelerating our clients' businesses through the power of collaboration. We believe in the power of technology responsibly used to help people, partners and the planet.

YOUR LIFE @ IBM

In a world where technology never stands still, we understand that, dedication to our clients success, innovation that matters, and trust and personal responsibility in all our relationships, lives in what we do as IBMers as we strive to be the catalyst that makes the world work better.

Being an IBMer means you'll be able to learn and develop yourself and your career, you'll be encouraged to be courageous and experiment everyday, all whilst having continuous trust and support in an environment where everyone can thrive whatever their personal or professional background.

Our IBMers are growth minded, always staying curious, open to feedback and learning new information and skills to constantly transform themselves and our company. They are trusted to provide on-going feedback to help other IBMers grow, as well as collaborate with colleagues keeping in mind a team focused approach to include different perspectives to drive exceptional outcomes for our customers. The courage our IBMers have to make critical decisions everyday is essential to IBM becoming the catalyst for progress, always embracing challenges with resources they have to hand, a can-do attitude and always striving for an outcome focused approach within everything that they do.

Are you ready to be an IBMer?

ABOUT IBM

IBM's greatest invention is the IBMer. We believe that through the application of intelligence, reason and science, we can improve business, society and the human condition, bringing the power of an open hybrid cloud and AI strategy to life for our clients and partners around the world.

Restlessly reinventing since 1911, we are not only one of the largest corporate organizations in the world, we're also one of the biggest technology and consulting employers, with many of the Fortune 500 companies relying on the IBM Cloud to run their business.

At IBM, we pride ourselves on being an early adopter of artificial intelligence, quantum computing and blockchain. Now it's time for you to join us on our journey to being a responsible technology innovator and a force for good in the world.

IBM is proud to be an equal-opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, gender, gender identity or expression, sexual orientation, national origin, genetics, pregnancy, disability, neurodivergence, age, or other characteristics protected by the applicable law. IBM is also committed to compliance with all fair employment practices regarding citizenship and immigration status.
