Industry Cities & Places

At Jacobs, we're challenging today to reinvent tomorrow by solving the world's most critical problems for thriving cities, resilient environments, mission-critical outcomes, operational advancement, scientific discovery and cutting-edge manufacturing, turning abstract ideas into realities that transform the world for good.

Your impact

Jacobs is actively seeking a skilled Mid-Level Data Scientist to join our Advisory Solutions Group, specifically within the Asset Management Digital Strategies Practice focusing on Federal clients. This role is integral to a specialized team that delivers advanced AI-driven analytical solutions to a diverse array of Federal organizations, aiming to enhance operational efficiency and management effectiveness. The Mid-Level Data Scientist will engage in various activities, including developing machine learning models, designing AI algorithms, creating semantic search solutions, training models, and generating insightful visualizations and reports.

Key Responsibilities:

- Develop and implement machine learning models and AI algorithms to solve complex problems.
- Design and optimize database architectures to support AI applications.
- Create and maintain semantic search solutions to improve data retrieval and user experience.
- Train and fine-tune machine learning models to ensure high performance and accuracy.
- Create and maintain interactive decision-support systems tailored to client needs.
- Collaborate with internal teams and clients to provide strategic AI-driven insights and solutions.
- Stay updated with the latest advancements in AI and data science to continuously improve our practices.

Here's what you'll need

- At least 3 years of experience in AI, data science, or a related field, including academic projects or internships specifically focusing on AI and data analytics.
- Bachelor’s or Master’s degree in a quantitative discipline, such as Computer Science, Data Science, Data Engineering, Artificial Intelligence, Applied Mathematics, or a closely related field.
- Proficiency with Python, R, JavaScript, or TypeScript.
- Strong understanding of SQL and relational databases.
- Experience integrating external AI models, such as those from OpenAI, Mixtral, LLaMA, and other platforms like Azure Machine Learning, Amazon SageMaker, or Vertex AI.
- Deployment, MLOps, testing, and model-monitoring.
- Knowledge of semantic search implementation for enhanced data retrieval and user experience.
- Demonstrated ability to learn and apply new technical skills in a fast-paced environment.
- Strong problem-solving capabilities and a team-oriented mindset.
- Ability to travel up to 20% of the time CONUS and OCONUS, with the ability to obtain a U.S. Government Common Access Card.
- Able to obtain and maintain a U.S. Government security clearance.
- Must be a United States Citizen, as this role involves government-facing work. Visa sponsorship is not available.

Ideally, you'll also have:

- Hands-on experience with Palantir Foundry, including model deployment, data integration, or workflow automation.

Posted Salary Range: Minimum

85,000.00

Posted Salary Range: Upper

148,700.00

Our health and welfare benefits are designed to invest in you, and in the things you care about. Your health. Your well-being. Your security. Your future. Employees have access to medical, dental, vision, and basic life insurance, a 401(k) plan, and the ability to purchase company stock at a discount. Eligible employees may also enroll in a deferred compensation plan or the Executive Deferral Plan. Jacobs has an unlimited U.S. Personalized Paid Time Off (PPTO) policy for full-time salaried/exempt employees, seven paid holidays, and caregiver leave. And certain roles may be eligible for additional rewards, including merit increases, performance discretionary bonus, and stock.

The base salary range for this position is $85,000.00 to $148,700.00. Within the range, individual pay is determined by work location and additional factors, including job-related skills, experience, and relevant education or training.

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability or protected veteran status. Job posted on September 27, 2026. This position will be open for at least 3 days.

We value collaboration and believe that in-person interactions are crucial for both our culture and client delivery. We empower employees with our hybrid working policy, allowing them to split their work week between Jacobs offices/projects and remote locations enabling them to deliver their best work.

Your application experience is important to us, and we’re keen to adapt to make every interaction even better. If you require further support or reasonable adjustments with regards to the recruitment process (for example, you require the application form in a different format), please contact the team via Careers Support .
