Posted: 2026-10-15

Schedule: Full time

Shift: First Shift

Professional Service Industries, Inc. (Intertek-PSI) is looking for a Entry Level Construction Material Testing Technician to join our Building & Construction team in Austin, Texas. Intertek-PSI is a leading US based provider of assurance, testing, inspection, and consulting solutions in civil and commercial construction. Our broad service offering includes construction materials testing, geotechnical engineering, environmental consulting, industrial hygiene, and specialty testing. Through these risk management and quality assurance services, we ensure the reliability, safety and performance of our client's new developments, existing assets, and facilities.

Field Technician I

What are we looking for?

Professional Service Industries, Inc. (Intertek-PSI) is actively seeking a Entry Level Construction Material Testing Technician to join our Building & Construction team in Austin, Texas. This is an excellent opportunity for an individual with concrete testing experience who is looking to grow their career in the construction materials testing industry.

Intertek's Building and Construction division is a suite of Intertek brands that are industry leaders across multiple architecture, engineering and construction disciplines, developing the most innovative product and project solutions. Intertek's project-related assurance, testing, inspection and consulting services are the risk management and quality assurance partner you need to ensure the reliability, safety and performance of your new developments, existing assets and facilities.

We are seeking a Field Technician I with experience performing concrete strength testing and laboratory testing procedures. The ideal candidate will have experience conducting compressive strength, shrinkage, mortar, and grout testing while maintaining accurate test documentation and reporting results to project teams.

This position requires strong attention to detail, the ability to follow established testing procedures, and a commitment to safety and quality.

What You'll Do

In this role, you will perform field concrete testing activities on active construction sites to verify compliance with project specifications and industry standards. Primary responsibilities include conducting fresh concrete testing, observing concrete placement operations, and collecting and sampling concrete cylinders for laboratory testing and quality assurance purposes.

You will accurately document test results, field observations, and project data while maintaining complete and organized records. The position requires adherence to established testing procedures, quality control standards, and safety requirements.

Under direct supervision, you will communicate testing results, project information, and field observations with project managers, contractors, clients, and team members. You may also assist with additional construction materials testing, inspection services, and project support activities as needed to meet business and project requirements..

- Minimum Requirements & Qualifications
- High School Diploma or GED preferred
- Minimum one (1) year of concrete strength testing experience required
- Valid Driver's License and satisfactory driving record required
- Basic math, calculator, and computer skills required
- Ability to read and understand work plans and testing procedures
- Strong verbal, written, and interpersonal communication skills
- Ability to work overtime, off-shift, and occasional overnight hours as required
- Ability to work both independently and as part of a team
- Ability to maintain detailed and accurate testing documentation

Preferred Qualifications

ACI Concrete Strength Certification

- Ability to obtain ACI Concrete Strength Certification within three (3) months of hire
- Additional testing or inspection certifications relevant to the region or state

Experience working in a construction materials testing laboratory environment

Physical Requirements

- Ability to lift, carry, push, and pull 30 to 50 pounds frequently and over 50 pounds with assistance
- Ability to stand and walk for extended periods
- Ability to kneel, squat, bend, and climb as required
- Ability to work outdoors in varying weather conditions, including heat and cold
- Ability to distinguish sounds and receive detailed verbal instructions
- Ability to work at heights and on active construction sites when required

Intertek: Total Quality. Assured.

Intertek is a world leader in the Quality Assurance market, with a proven, high-quality business model and a global network of customer-focused operations and highly engaged subject matter experts. With passion, pace, and precision we work to exceed our customers’ expectations, while engaging with our employees to be 10X in their performance and professional growth.

Intertek is a drug-free workplace. For certain safety-sensitive roles, a pre-employment drug screen will be required. Based on local law and legislation, marijuana may be included in that screening.

We Value Diversity

Intertek’s network of phenomenal people are our greatest assets, and the diversity they bring fuels our success. Intertek is an Equal Employment Opportunity Employer that values inclusion and diversity. We take affirmative action to ensure all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status, or other legally protected characteristics.

For individuals with disabilities who would like to request accommodation, or who need assistance applying, please email intertekhrusa@intertek.com or call 1-877-694-8543 (option #5) to speak with a member of the HR Department.
