Our MedTech Field Service Technician experiences a unique opportunity employ their technical experience by collaborating with healthcare professionals and leading technical initiatives in medical device technology. You will be responsible for installing, updating and performing services as needed for specialty hospital beds in hospitals across the United States, while delivering exceptional customer service. This is a great opportunity for you to advance your technical skills in the medical device industry!

Please Note: This is a 100% travel position. Local, Regional and National travel is required.

What you will be doing in the role:

- Provide ongoing communication and customer support to on-site hospital staff.
- Updating, repairing and testing, hospital beds.
- Conduct routine checks and records data from product tests after installation and configuration.
- Document and submit daily data while maintaining high standards of product support quality documentation.

You will have an opportunity to travel, grow, and expand into new opportunities while earning supplemental income and learning the medical device industry.

Job Requirements:

- Associate degree, or equivalent military training programs, or equivalent biomedical or technical field service experience. (2-3 years field experience)

- Professional business acumen and effective communication skills required.
- Self-motivated individual who can work independently or collaboratively within a team, required.
- Strong time management and organizational skills to ensure on-time completion of project assignments.
- An active and unrestricted driver license, and a personal vehicle for local work-related assignments.
- Ability to sit and stand for long periods of time and lift up to 70 pounds, required.
- Ability to clear hospital vendor credentialing requirements, including providing proof of vaccination status is required or willing to obtain if offered role.
- Position may/will require up to date immunizations.

Travel Requirement:

- Full-time commitment with travel flexibility.
- Driving is considered a business requirement for this role. Candidates must possess a valid driver's license and will be subject to a review of their driving record prior to hire.
- Personal vehicle required for job-related assignments up to 3 hours from home.
- Located within 1 hour of a major airport.
- Travel, and your time traveling is paid as is training.

Preferred Attributes:

- Background in biomedical, networking, military, or field-based technician roles
- Experience working in a technical role within a healthcare environment, preferably in hardware upgrades.
- Strong computer skills and comfort with troubleshooting with Microsoft Office applications, including Outlook, Excel, Word, and OneNote, etc.

IQVIA MedTech CFS takes the approach to helping customers drive healthcare forward in this challenging and fast-paced environment. We help customers accelerate results, improve patient outcomes, and unleash new opportunities.

Benefits: This position is not eligible for our Medical Benefits.

Vaccine/Immunization/Hospital Credentialing Requirement: A required function of this job requires individuals to enter various healthcare facilities. Thus, upon selection, individuals must complete healthcare facility credentialing process. To obtain credentials, individuals must meet the immunization requirements specified by the facility. Individuals are typically required to have completed/up to date: Measles, Mumps & Rubella vaccine, Varicella (chicken pox) vaccine, Negative Tuberculosis (TB) Test, Tetanus, Diphtheria & Pertussis (Tdap) vaccine, Hepatitis B vaccine, Influenza vaccine (seasonal), and COVID-19 vaccine primary series (heavily enforced by most facilities, some require booster(s)). Please note, IQVIA complies with all applicable laws regarding reasonable accommodations or exemptions for religious, medical, or other legally protected reasons, however, our client's requirements may supersede this.

*Please note: Due to the nature of this role, it is not eligible for Visa sponsorship.
