Job Description Summary

The Biomedical Equipment Technician responds to service calls to evaluate, diagnose, and perform repair and planned maintenance (PM) on customers' basic biomedical equipment; and drives customer satisfaction through service excellence.

- This position is located in New Orleans, LA
- This role is on-site at our client location
- This role offers relocation
- This role is 1st shift

Job Description

Responsibilities :

Under supervision, evaluate basic customer biomedical equipment issues, implement appropriate repairs, and as assigned, perform PM and safety/environmental inspections.

May assist more experienced technicians on basic and more complex repairs/resolution.

Effectively communicate and partner with teammates and colleagues.

Follow appropriate GE policies, procedures, hospital protocol, and completes necessary documentation.

Maintain daily communications with customers as directed, to ensure resolution and proper follow up, leading to strong customer relations and ongoing customer satisfaction.

As instructed, implement GE/customer facility contract and supports business goals/objectives.

Work as a member of local team to provide efficient service delivery to all accounts within the assigned area.

When trained, able to share on-call responsibility.

Document all repair actions and submit reports/summaries according to schedule.

Ensure proper care of spares, tools, and test equipment, and ensure calibration.

Enhance and maintain technical knowledge of current standards, codes, and procedures regarding safe and effective use of medical equipment through formal instruction.

Understand and utilize sources of help (i.e., manuals, tech support, Facetime app, online resources) to answer questions when performing PM.

Meet Health and Human Services, Environment Health and Safety requirements, and all other applicable regulatory requirements.

Qualifications :

Associate's or Bachelor's degree in Electrical Engineering, Biomedical Engineering, Mechanical Engineering, or related field;

OR equivalent military education;

OR participant in the formal GEHC Biomed/FE Services Internship or Military Externship program;

OR High School Diploma/GED and 2+ years of experience servicing electrical, electronics, IT or mechanical equipment.

Analytical and communication skills with the ability to communicate technical issues to the customer in an easy to understand manner.

The successful applicant must comply with GEHC's standard background check, including a post-offer drug test. In addition, during employment, the employee must comply with all customer access policies, including but not limited to obtaining and/or providing proof of required immunizations, and additional drug tests or background checks (including a federal government background check if assigned to support a contract with the federal government).

Legal authorization to work in the U.S. is required. We will not sponsor individuals for employment visas, now or in the future, for this job opening.

Special Physical Requirements:

Candidate must be able to lift, carry, push, and pull up to 35 lbs. unassisted and frequently bend, stoop, twist, climb, crouch/squat, kneel/crawl, sit and stand for long periods of time.

Candidate must also be able to reach at, above and below shoulder level, flex/extend neck and have good hand and finger dexterity.

Specific vision abilities required by this job may include color, close vision, distance vision, peripheral vision and depth perception.

Willingness to be available ""after hours"", or work a rotating On-Call schedule, including weekends, for critical issues and coverage, as necessary.

One year of related experience.

We expect all employees to live and breathe our behaviors: to act with humility and build trust; lead with transparency; deliver with focus, and drive ownership – always with unyielding integrity.

Our total rewards are designed to unlock your ambition by giving you the boost and flexibility you need to turn your ideas into world-changing realities. Our salary and benefits are everything you’d expect from an organization with global strength and scale, and you’ll be surrounded by career opportunities in a culture that fosters care, collaboration and support.
