TECHNICIAN, BIOMEDICAL II-Tyler, TX

Intelas

Position Title: BMET II

Join Intelas, a Compass Healthcare company.

Intelas, a Compass Healthcare company, delivers smarter asset management by blending expert service teams with intelligent, data-driven strategies that help hospitals improve uptime, simplify oversight, and make more informed capital decisions. Our programs support 100% regulatory compliance and drives 98% equipment uptime—so clinicians can focus on care, not equipment issues.

We support nearly 4,500 healthcare sites nationwide—from large, campus-based acute care hospitals to system-integrated outpatient clinics. With more than 1.15 million medical devices managed, we provide the clarity and consistency needed in today’s rapidly evolving healthcare environment.

Join Intelas—where your career thrives, your potential is unleashed, and your work directly supports patient care. Whether you're just starting out or are a seasoned professional, our people-first approach ensures opportunities for continuous growth, development, and fulfillment.

Job Summary

Key Responsibilities:

- Performs planned maintenance and electrical safety inspections on a broad range of patient care and selected support equipment in compliance with established standards.
- Manages all assigned equipment and schedules service.
- Performs pre-acceptance inspections and develop PM procedures on equipment; maintains files on procedures and manuals.
- Ensures test equipment is working properly and calibrated within established intervals.

- Responds expeditiously to calls from clinical departments to evaluate and rectify valid operator complaints and concerns.
- Researches and initiates orders for repair parts, working within established budget parameters.
- Maintains purchase order log and validate invoices for payment (field service personnel only).
- Provides informal training to equipment users and Crothall Services Group staff as requested or when circumstances dictate.
- Makes recommendations to the Department Manager regarding service strategies on equipment; keeps supervisor informed of activities, needs and problems.
- Participates in the Quality Improvement / Risk Management program by gaining an understanding of the issues and concerns of customers and making recommendations for improvement.
- Maintains an orderly and functional work environment.
- Provides emergency on-call responsibilities as needed.
- Documents all significant asset related actions in compliance with department practices.
- Participates in department meetings.
- Collaborates with fellow technical personnel in department meetings to ensure they are kept abreast of technical updates and/or device related problems.

Preferred Qualifications:

- Associates degree in electronics/biomedical equipment technology, military training or equivalent experience
- 3 years servicing clinical/patient care equipment in a hospital environment
- For field service positions requiring travel, valid driver’s license is required
- Ability to work independently with some supervision
- Good communication and strong customer service skills
- Good organization and time management skills
- Working knowledge of computer applications pertaining to tracking service histories and producing reports on assets

Good trouble-shooting skills

- Ability and willingness to serve "on-call" duty as required
- Strong work ethic and ability to work as a member of a team
