Captured	2026-10-23
Course sheet refs	EE-5, ME-5

> Paraphrased summary of the posting as it appeared on Oct 23, 2026, prepared for ECS 1100. Wording is condensed, not the employer's full text. Postings change and close often; open the link above for the current version before sharing with students.

Posting summary

What you would do

- Join a team such as product design, systems, or component design (towers, machine head, power conversion)
- Other areas: controls and operability, testing and validation, aerodynamics, performance
- Work on technically challenging, creative assignments
- Contribute to safety, quality, scalable products and decarbonization
- Pipeline candidate for the Wind Edison Engineering Development Program (EEDP)

What they ask for

- Full-time engineering student at an ABET-accredited university
- Rising seniors or graduating master's candidates
- Preferred GPA 3.2/4.0 or higher
- Passion for wind energy; prior internship/co-op/research preferred
- Explains technical problems clearly in writing and speech
- Authorized to work in the US without sponsorship

Summary sheet details

EE sheet (EE-5): Majors / requirement: Mechanical, electrical or aerospace engineering (BS/MS, ABET) · Pay: $1,000–$2,000/week · Dates: Posted Aug 2026; closes Nov 30, 2026; May–Aug 2027 · Status (as of Oct 23, 2026): Open (closes Nov 30) · Location: Greenville, SC or Schenectady, NY (US) · Type: Internship

ME sheet (ME-5): Majors / requirement: Mechanical, electrical or aerospace engineering (BS/MS, ABET) · Pay: $1,000–$2,000/week · Dates: Posted Aug 2026; closes Nov 30, 2026; May–Aug 2027 · Status (as of Oct 23, 2026): Open (closes Nov 30) · Location: Greenville, SC or Schenectady, NY (US) · Type: Internship
