> Paraphrased summary of the posting as it appeared on Oct 23, 2026, prepared for ECS 1100. Wording is condensed, not the employer's full text. Postings change and close often; open the link above for the current version before sharing with students.

Posting summary

What you would do

- Support electrical work on power, solar, energy-storage or data-center projects
- Help lay out a collection system within project constraints
- Handle shop drawings, submittals and RFIs
- Assist with purchase orders and subcontractor agreements
- Take part in preconstruction and pre-installation meetings
- Help prepare and evaluate bid packages

What they ask for

- Pursuing a 4-year undergraduate EE degree
- Willing to relocate; valid driver's license
- Comfortable on jobsites (heat, dust, noise, trailer offices)
- Previous related internship preferred
- Strong collaboration, communication and problem-solving
- No visa sponsorship
