Job description

Requisition Id 17298

Overview:

We are seeking an Environmental Geospatial Data and Visualization Specialist who will focus on environmental data modernization efforts through the application of Geographic Information Systems (GIS), enterprise GIS platforms, and user-centered workflow design. This position resides in the Environmental Sampling and Data Evaluation Group in the Environmental Protection Services Division; Environmental Safety, Health, and Quality Directorate at Oak Ridge National Laboratory (ORNL).

Major Duties/Responsibilities:

The position duties include collaborating closely with subject matter experts across environmental sampling, water quality, natural and cultural resource management programs to streamline data integration, improve operational efficiency, and support decision-making. The position also includes cross-training as a backup resource for enterprise GIS deployments using the Esri platform and may support interoperability efforts with environmental data management systems, including EQuIS. Additional cross-training opportunities may include hydrologic data evaluation and instream flow monitoring support.

- Support environmental data modernization initiatives through GIS integration, workflow improvement, and process optimization.
- Assist in the design, development, testing, deployment, and maintenance of GIS applications and solutions.
- Perform GIS data quality assurance and quality control, maintain documentation, and support sound data stewardship practices.
- Collaborate with program staff and stakeholders to gather business requirements, improve workflows, and support user-centered solution design.
- Provide support for enterprise GIS operations using the Esri platform, including ArcGIS Pro, ArcGIS Enterprise/Portal, web maps, web applications, dashboards, and mobile tools such as Field Maps and Survey123.
- Assist with service publishing, data updates, system troubleshooting, and other production support activities for GIS services and applications.

- Serve as a backup resource for selected enterprise GIS administration, deployment, and maintenance functions through cross-training.
- Support interoperability between GIS and environmental data management systems, including integration with environmental sampling, evaluation, analytics, and QA/QC workflows.
- Participate in data validation, visualization, and reporting efforts that support environmental compliance and protection programs.
- As needed, assist with hydrologic monitoring activities, including data review, visualization, and basic analysis of field monitoring datasets.
- Cross-train to provide backup support for instream flow monitoring, hydrologic data evaluation, and associated field equipment operations, as workload permits.

Basic Qualifications:

- BS degree in GIS, Informatics, Environmental Science, Earth Sciences, or a related field with 2-4 years of experience in utilizing GIS platforms for environmental data visualization and analysis or MS degree with 1-3 years of experience in utilizing GIS platforms for environmental data visualization and analysis
- Proficiency in GIS desktop applications, particularly ArcGIS Pro
- Familiarity with enterprise GIS environments and web-based GIS applications
- Working knowledge of scripting and query languages, including:
- Python
- SQL
- Arcade
- Ability to work collaboratively with technical and non-technical stakeholders
- Strong documentation and communication skills

Preferred Qualifications:

- Experience or familiarity with Microsoft Power Platform, including:
- Power Automate
- Power BI
- Power Apps
- SharePoint
- Prior experience working within the DOE system or similar federal/public-sector environments
- Exposure to environmental compliance, environmental monitoring, or field data collection workflows
- Excellent written and oral communication skills.
- Motivated self-starter with the ability to work independently and to participate creatively in collaborative teams across the laboratory.
- Knowledge of facilities and environmental areas at Oak Ridge National Laboratory

Special Requirements:

- Work may involve various physical requirements associated with field working conditions. As such, a pre-hire physical will be required after offer.
- Visa sponsorship is not available for this position.
- This position requires the ability to obtain and maintain an HSPD-12 PIV badge.

For employment at Oak Ridge National Laboratory (ORNL), a Real ID compliant form of identification will be required. Additionally, ORNL is subject to Department of Energy (DOE) access restrictions. All employees must also be able to obtain and maintain a federal Personal Identity Verification (PIV) card as mandated by Homeland Security Presidential Directive 12 (HSPD-12) and Department of Energy (DOE) Order 473.1A, which requires a favorable post-employment background investigation.

To obtain this credential, new employees must successfully complete and pass a Federal Tier 1 background check investigation. This investigation includes a declaration of illegal drug activities, including use, supply, possession, or manufacture within the last year. This includes marijuana and cannabis derivatives, which are still considered illegal under federal law, regardless of state laws.

About ORNL:

As a U.S. Department of Energy (DOE) Office of Science national laboratory, ORNL has an impressive 80-year legacy of addressing the nation's most pressing challenges. Our team is made up of over 7,000 dedicated and innovative individuals! Our goal is to create an environment where a variety of perspectives and backgrounds are valued, ensuring ORNL is known as a top choice for employment. These principles are essential for supporting our broader mission to drive scientific breakthroughs and translate them into solutions for energy, environmental, and security challenges facing the nation.

ORNL offers competitive pay and benefits programs to attract and retain individuals who demonstrate exceptional work behaviors. The laboratory provides a range of employee benefits, including medical and retirement plans and flexible work hours, to support the well-being of you and your family. Employee amenities such as on-site fitness, banking, and cafeteria facilities are also available for added convenience.

Other benefits include the following: Prescription Drug Plan, Dental Plan, Vision Plan, 401(k) Retirement Plan, Contributory Pension Plan, Life Insurance, Disability Benefits, Generous Vacation and Holidays, Parental Leave, Legal Insurance with Identity Theft Protection, Employee Assistance Plan, Flexible Spending Accounts, Health Savings Accounts, Wellness Programs, Educational Assistance, Relocation Assistance, and Employee Discounts.

#LI-DC1

This position will remain open for a minimum of 5 days after which it will close when a qualified candidate is identified and/or hired.

We accept Word (.doc, .docx), Adobe (unsecured .pdf), Rich Text Format (.rtf), and HTML (.htm, .html) up to 5MB in size. Resumes from third party vendors will not be accepted; these resumes will be deleted and the candidates submitted will not be considered for employment.

If you have trouble applying for a position, please email ORNLRecruiting@ornl.gov.

ORNL is an equal opportunity employer. All qualified applicants, including individuals with disabilities and protected veterans, are encouraged to apply. UT-Battelle is an E-Verify employer.
