Job description

About Alcon:

As the global leader in eye care, Alcon has built a rich history of providing innovative products to customers and patients all over the world. We're extremely proud of our legacy and the significant way we've helped to shape the industry over the last 70 years, but we're just getting started. Our relentless passion to eliminate unmet medical needs drives our pursuit to further advance eye health worldwide. We're looking for exceptionally talented, driven people who want to make a difference. If you'd like to help us change the way the world sees, this is your chance to Be Brilliant!

Position Description for this location; Fort Worth, Texas - ASPEX

Design and implement modifications to the existing manufacturing equipment that will improve the operational efficiencies, plan and execute engineering project work with minimal supervision, able to estimate time required for engineering activities, ability to be flexible in work assignments.

Minimum Qualifications:

Must be enrolled in an accredited university or college for at least one semester prior to internship or co-op, and at least one additional semester following internship or co-op.

Must be pursuing at least a bachelor's or higher degree in Mechanical & Chemical Manufacturing, Electrical, Computer, or Biomedical engineering or a related major.

Academic performance: Minimum cumulative GPA 2.8/4.0

Demonstrated leadership skills (i.e. extracurricular activities or projects)

Must be authorized to work in the US on a permanent basis without requiring sponsorship (students on an F1 visa with CPT can be accommodated)

Ability to commit to a Spring/Summer, full-time (40 hrs. per week) Co-op internship

Preferred Qualifications:

C++/ logic software programming

Software skills with CAD Experience or 3d modeling

Equal Employment Opportunity:

Alcon is an Equal Opportunity Employer and participates in E-Verify. Alcon takes pride in maintaining a diverse environment and our policies are not to discriminate in recruitment, hiring, training, promotion or other employment practices for reasons of race, color, religion, gender, national origin, age, sexual orientation, gender identity, marital or veteran status, disability, or any other legally protected status. Alcon is also committed to working with and providing reasonable accommodation to individuals with disabilities. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the application process, or in order to perform the essential functions of a position, please send an email to alcon.recruitment@alcon.com and let us know the nature of your request and your contact information.

Notes for ECS 1100 students

How this connects to your major

Biomedical Engineering: device design, clinical use, testing, quality, human factors or biomedical research. These are teaching annotations, not an employer guarantee of eligibility.

Career exploration example. Enrollment, GPA, semester timing, experience, degree level and work authorization in the source determine eligibility; internship does not mean first-year eligible.

BME: Named discipline appears in source; consult qualifications for eligibility

Skills mentioned in the posting

C/C++, CAD

Eligibility excerpts not shown above

Compensation (source excerpts): Not stated in captured posting text.

Course sheet tags

Majors (teaching tags): BME; Career stage (teaching tag): Internship / co-op; Geography: DFW; Recruiting status at capture: Posting readable at capture; no closure notice found; Employment type: Full time.
