Job description

Work Flexibility: Onsite

What You Get Out of the Internship

At Stryker, we believe that developing the next generation of talent is just as important as developing life-changing medical technologies. As an intern, you won't just observe - you'll contribute to meaningful projects, gain exposure to leaders who will mentor you, and experience a culture of innovation and teamwork that is shaping the future of healthcare. As an intern, you will:

Apply classroom knowledge and gain experience in a fast-paced and growing industry setting

Implement new ideas, be constantly challenged, and develop your skills

Network with key/high-level stakeholders and leaders of the business

Be a part of an innovative team and culture

Experience documenting complex processes and presenting them in a clear format

Who we want

Challengers. People who seek out the hard projects and work to find just the right solutions.

Teammates. Partners who listen to ideas, share thoughts and work together to move the business forward.

Charismatic networkers. Relationship-savvy people who intentionally make connections with both internal partners and external contacts.

Strategic thinkers. Interns who propose innovative ideas and consistently exceed their performance objectives.

Customer-oriented achievers. Individuals with an unparalleled work ethic and customer-focused attitude who bring value to their partnerships.

Game changers. Persistent interns who will stop at nothing to live out Stryker's mission to make healthcare better.

Commercial Operations

Product Integration Engineering

Product Integration Engineering interns work at the intersection of technology, engineering, and business operations. They partner with Engineering Services, Installation, Field Service, Project Management, and Product Development teams to solve complex business challenges using software tools, automation, and emerging AI technologies. Interns help identify manual processes, analyze workflows, and develop scalable solutions that improve efficiency, data visibility, and successful customer outcomes across the organization.

This role is ideal for students who enjoy combining software, systems thinking, process improvement, data analysis, and problem-solving to deliver practical solutions that make teams more efficient and customers more successful.

Majors Targeted:

Computer Science or Computer Engineering

Software Engineering

Artificial Intelligence

Biomedical or Electrical Engineering

Related Majors

What You Need

Currently pursuing a Bachelor's or Master's degree in a related field; must remain enrolled in a degree-seeking program after the internship.

Cumulative 3.0 GPA or above (verified at time of hire)

Must be legally authorized to work in the U.S. and not require employment-based sponsorship now or in the future.

Strong written and verbal communication skills, with proven ability to collaborate and build relationships

Demonstrated leadership, problem-solving, and organizational skills with the ability to manage multiple priorities

Proficiency in Microsoft Office (Excel, Word, PowerPoint) and eagerness to learn in a dynamic environment.

$20 min hourly wage - $35 max hourly wage, sign-on bonus, 11 paid holidays annually, and either paid corporate housing or a living stipend, dependent upon hiring location

Travel Percentage: 10%

Stryker Corporation is an equal opportunity employer. Qualified applicants will receive consideration for employment without regard to race, ethnicity, color, religion, sex, gender identity, sexual orientation, national origin, disability, or protected veteran status. Stryker is an EO employer - M/F/Veteran/Disability.

Stryker Corporation will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. However, employees who have access to the compensation information of other employees or applicants as a part of their essential job functions cannot disclose the pay of other employees or applicants to individuals who do not otherwise have access to compensation information, unless the disclosure is (a) in response to a formal complaint or charge, (b) in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or (c) consistent with the contractor's legal duty to furnish information.

Notes for ECS 1100 students

How this connects to your major

Computer Science: healthcare software, embedded systems, automation or secure computing. These are teaching annotations, not an employer guarantee of eligibility.

Career exploration example. Enrollment, GPA, semester timing, experience, degree level and work authorization in the source determine eligibility; internship does not mean first-year eligible.

CS: Named discipline appears in source; consult qualifications for eligibility

Skills mentioned in the posting

Communication/teamwork, Excel

Course sheet tags

Majors (teaching tags): CS; Career stage (teaching tag): Internship / co-op; Geography: DFW; Recruiting status at capture: Posting readable at capture; no closure notice found; Employment type: Full time.

Course spreadsheet notes

Skills mentioned: Workflow analysis. Automation. Software tools and emerging AI. Communication and process documentation.

Software Engineering

Software Engineering explicitly listed. Operations software rather than device firmware.

Degree: Pursuing bachelor’s or master’s degree

Experience / eligibility: Bachelor's or master's student. Remain enrolled after internship. GPA 3.0+.

Other: U.S. work authorization, no sponsorship now or in future.

Other majors named: Software Engineering, CS, Computer Engineering, AI, BME, EE, related

Career stage: Student internship / Summer 2027 internship

Salary evidence: $20 min hourly wage – $35 max hourly wage, sign-on bonus, 11 paid holidays annually, and either paid corporate housing or a living stipend, dependent upon hiring location
