Job description

Work Flexibility: Onsite

What You Get Out of the Internship

At Stryker, we believe that developing the next generation of talent is just as important as developing life-changing medical technologies. As an intern, you won't just observe - you'll contribute to meaningful projects, gain exposure to leaders who will mentor you, and experience a culture of innovation and teamwork that is shaping the future of healthcare. As an intern, you will:

· Apply classroom knowledge and gain experience in a fast-paced and growing industry setting

· Implement new ideas, be constantly challenged, and develop your skills

· Network with key/high-level stakeholders and leaders of the business

· Be a part of an innovative team and culture

· Experience documenting complex processes and presenting them in a clear format

Who we want

Challengers. People who seek out the hard projects and work to find just the right solutions.

Teammates . Partners who listen to ideas, share thoughts and work together to move the business forward.

Charismatic networkers. Relationship-savvy people who intentionally make connections with both internal partners and external contacts.

Strategic thinkers . Interns who propose innovative ideas and consistently exceed their performance objectives.

Customer-oriented achievers. Individuals with an unparalleled work ethic and customer-focused attitude who bring value to their partnerships.

Game changers. Persistent interns who will stop at nothing to live out Stryker's mission to make healthcare better.

Opportunities Available

As a Data Analytics intern at Stryker, you may be placed in one of the following teams, where you will contribute to projects that help transform data into insights that drive business decisions and improve efficiency:

· Business Analytics - Visualize and translate data into actionable insights for cross-functional leaders and teams. Support areas such as:

o Sales: Provide reporting, content, and tools that increase sales productivity and effectiveness while streamlining processes and metrics.

o Data Governance: Help deliver trusted, high-quality data that enables scalability, process excellence, and improved partner experiences.

o Commercial Analytics: Analyze diverse data sources to support business growth strategies by reducing time spent on data preparation and increasing focus on insights and foresight.

o Technical Support: Work with stakeholders to gather Support KPI requirements and build PowerBI dashboards to visualize data. Provide forensic analysis of data and identify trend patterns. Develop AI solutions using MS CoPilot and other LLM/ML solutions.

· Data Intelligence - Develop dashboards and visualizations of internal datasets that support informed decision-making across business units and for customers.

· Information Technology - Partner with IT teams to leverage emerging technologies and analytics to deliver quality data, trusted information, and innovative tools that support Stryker's growth objectives.

Majors Targeted: Business Analytics, Data Science, Information Technology (IT), Information Systems (MIS), Statistics, Computer Engineering, Computer Science, Software Engineering, Supply Chain Management/Logistics, Finance

What You Need

· Currently pursuing a Bachelor's or Master's degree in a related field; must remain enrolled in a degree-seeking program after the internship.

· Cumulative 3.0 GPA or above (verified at time of hire)

· Must be legally authorized to work in the U.S. and not require sponsorship now or in the future.

· Strong written and verbal communication skills, with proven ability to collaborate and build relationships

· Demonstrated leadership, problem-solving, and organizational skills with the ability to manage multiple priorities

· Proficiency in Microsoft Office (Excel, Word, PowerPoint) and eagerness to learn in a dynamic environment.

· Familiar with Python, Structured Query Language (SQL), Microsoft Azure and/or Google Cloud Platform

· Understanding of ETL frameworks and desire to learn how to build

· Familiar with building reporting/analytics solutions with Microsoft Power BI

· Familiar with Cursor, Microsoft CoPilot, Prompt Engineering and vibe-coding tools

· Desire to grow and be challenged technically and deliver exceptional customer outcomes

$20 min hourly wage - $35 max hourly wage, sign-on bonus, 11 paid holidays annually, and either paid corporate housing or a living stipend, dependent upon hiring locatio

Travel Percentage: None

Stryker Corporation is an equal opportunity employer. Qualified applicants will receive consideration for employment without regard to race, ethnicity, color, religion, sex, gender identity, sexual orientation, national origin, disability, or protected veteran status. Stryker is an EO employer - M/F/Veteran/Disability.

Stryker Corporation will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. However, employees who have access to the compensation information of other employees or applicants as a part of their essential job functions cannot disclose the pay of other employees or applicants to individuals who do not otherwise have access to compensation information, unless the disclosure is (a) in response to a formal complaint or charge, (b) in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or (c) consistent with the contractor's legal duty to furnish information.

Notes for ECS 1100 students

How this connects to your major

Data Science: healthcare data analysis, data engineering, statistics, AI or computational biology; Computer Science: healthcare software, embedded systems, automation or secure computing. These are teaching annotations, not an employer guarantee of eligibility.

Career exploration example. Enrollment, GPA, semester timing, experience, degree level and work authorization in the source determine eligibility; internship does not mean first-year eligible.

DS: Named discipline appears in source; consult qualifications for eligibility

CS: Named discipline appears in source; consult qualifications for eligibility
