Job description

We anticipate the application window for this opening will close on - 16 Oct 2026

Careers that change lives start here. Medtronic is a global leader in healthcare technology with a Mission to alleviate pain, restore health, and extend life. Our 95,000 employees work across more than 150 countries to put patients first - developing innovative medical technologies that improve the lives of 72+ million patients each year. Your unique talents will help shape the future of healthcare while building a career grounded in purpose, growth, and impact.

A Day in the LifeAt Medtronic Neuroscience, we bring innovation, expertise, and purpose together to improve outcomes and transform lives for people living with neurological, spine, and chronic pain conditions.

Our Pelvic Health Operating Unit delivers innovative neuromodulation therapies that help restore bladder and bowel control through personalized, minimally invasive treatment. Backed by strong clinical evidence, these therapies empower patients with greater confidence, independence, and quality of life.

Check us out on LinkedIn: Medtronic Pelvic Health

Pelvic Health Therapies develops technologies that help patients manage chronic conditions and improve quality of life through connected therapies and digital health solutions. This role is part of the software engineering organization responsible for designing, developing, and maintaining web and mobile applications that support therapy delivery, patient engagement, and clinical outcomes in a regulated medical device environment.

This position is responsible for defining, implementing, executing, and documenting software for the next generation of Pelvic Health software products. The activities will encompass all facets and phases of software engineering, meeting all regulatory standards, to realize complex, innovative, high reliability systems that improve the quality of life of people around the world.

As a Software Engineer, you will be working with a motivated, diverse, and knowledgeable development teams to deliver world-class products.

This role requires the ability to understand moderately complex technologies, coupled with the technical skills to transpose both into exceptional products that delight users. This is a highly trusted position that requires an individual to think independently,

be decisive, and need minimum supervision.

This position will be on-site at the Rice Creek East location in Fridley, MN M-F with the option to work remote on Fridays.

Responsibilities:

Designs, develops, tests, debugs and implements operating systems components, software tools and utilities.

Determines systems software design requirements.

Ensures that system improvements are successfully implemented and monitored to increase efficiency.

Generates systems software engineering policies, standards and procedures.

May work across a variety of software lifecycle activities as determined by program needs.

Required Qualifications:

Bachelor's degree required with 2+ years of experience or Masters Degree with 0+ years of experience required.

Experience with Java

Preferred Qualifications

Experience developing, testing, and debugging software applications.

Experience with software development lifecycle processes and technical documentation.

Experience working with object-oriented programming languages and software development tools.

Experience developing web and mobile applications.

Experience in the medical device, healthcare technology, or other regulated industry.

Knowledge of software verification and validation practices.

Experience working in Agile software development environments.

Experience supporting cloud-connected or digital health solutions.

For Baccalaureate degrees earned outside of the United States, a degree that satisfies the requirements of 8 C.F.R. § 214.2(h)(4)(iii)(A) is required.

Physical Job Requirements

The above statements are intended to describe the general nature and level of work being performed by employees assigned to this position, but they are not an exhaustive list of all the required responsibilities and skills of this position.

The physical demands described within the Responsibilities section of this job description are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. For Office Roles: While performing the duties of this job, the employee is regularly required to be independently mobile. The employee is also required to interact with a computer, and communicate with peers and co-workers. Contact your manager or local HR to understand the Work Conditions and Physical requirements that may be specific to each role.

U.S. Work Authorization & Sponsorship

At Medtronic, we are committed to fostering an environment where employees can thrive and make a meaningful impact. In alignment with our enterprise-wide workforce planning approach, U.S. work authorization sponsorship (H-1B, TN, J, etc.) is offered exclusively for Principal-level roles and above, where specialized expertise aligns with long-term business needs. Roles below the Principal level require candidates to possess unrestricted U.S. work authorization at the time of hire and for the duration of employment.

Recruitment Fraud Alert

We are aware of phishing scams targeting job seekers. Please keep the following in mind:

Apply only through official Medtronic channels. All legitimate Medtronic recruiting communications come from approved Medtronic platforms and official @medtronic.com email addresses.

Medtronic will never ask for payment or sensitive personal information (such as bank account or Social Security details) during early stages of the hiring process. Any such requests are not legitimate.

If you receive a suspicious message claiming to be from Medtronic, do not respond, click links, or open attachments.

If you have any questions, concerns regarding the authenticity of a communication alleged to have been made by or on behalf of Medtronic, please contact us immediately at AskHR@medtronic.com.

Benefits & Compensation

Medtronic offers a competitive Salary and flexible Benefits Package

A commitment to our employees lives at the core of our values. We recognize their contributions. They share in the success they help to create. We offer a wide range of benefits, resources, and competitive compensation plans designed to support you at every career and life stage.

Salary ranges for U.S (excl. PR) locations (USD):$100,000.00 - $150,000.00

This position is eligible for a short-term incentive called the Medtronic Incentive Plan (MIP).

The base salary range is applicable across the United States, excluding Puerto Rico and specific locations in California. The offered rate complies with federal and local regulations and may vary based on factors such as experience, certification/education, market conditions, and location. Compensation and benefits information pertains solely to candidates hired within the United States (local market compensation and benefits will apply for others).

The following benefits and additional compensation are available to those regular employees who work 20+ hours per week: Health, Dental and vision insurance, Health Savings Account, Healthcare Flexible Spending Account, Life insurance, Long-term disability leave, Dependent daycare spending account, Tuition assistance/reimbursement, and Simple Steps (global well-being program).

The following benefits and additional compensation are available to all regular employees: Incentive plans, 401(k) plan plus employer contribution and match, Short-term disability, Paid time off, Paid holidays, Employee Stock Purchase Plan, Employee Assistance Program, Non-qualified Retirement Plan Supplement (subject to IRS earning minimums), and Capital Accumulation Plan (available to Vice Presidents and above, or subject to IRS earning minimums).

Regular employees are those who are not temporary, such as interns. Temporary employees are eligible for paid sick time, as required under applicable state law, and the Employee Stock Purchase Plan. Please note some of the above benefits may not apply to workers in Puerto Rico.

Further details are available at the link below:

Medtronic benefits and compensation plans

It is the policy of Medtronic to provide equal employment opportunity (EEO) to all persons regardless of age, color, national origin, citizenship status, physical or mental disability, race, religion, creed, gender, sex, sexual orientation, gender identity and/or expression, genetic information, marital status, status with regard to public assistance, veteran status, or any other characteristic protected by federal, state or local law. In addition, Medtronic will provide reasonable accommodations for qualified individuals with disabilities.

If you are applying to perform work for Medtronic, Inc. (“Medtronic”) in any position which will involve performing at least two (2) hours of work on average each week within the unincorporated areas of Los Angeles County, you can find here a list of all material job duties of the specific job position which Medtronic reasonably believes that criminal history may have a direct, adverse and negative relationship potentially resulting in the withdrawal of a conditional offer of employment. Medtronic will consider for employment qualified job applicants with arrest or conviction records in accordance with the Los Angeles County Fair Chance Ordinance for Employers and the California Fair Chance Act.
